SLOW SKIING AREAS
All runs marked with a green line and are SLOW SKIING AREAS. Fast or reckless skiing or snowboarding are not permitted at Snowbird. Check with Ski Patrol for current conditions.

NO UPHILL TRAVEL
For your safety, Snowbird does not allow unauthorized uphill travel during winter operating seasons, including hiking, skinning or biking.

Information in this trail map is subject to change without notice.

welcome

The 2022-23 season is significant in symbolizing a time of transformation while staying true to what Snowbird has always been. Brand-new, sleek and modern Trams whisk guests to 11,000-foot Hidden Peak, but the way down is just as challenging and legendary as ever. Snowbird was founded by a group of trailblazers — skiers who weren't satisfied by Utah's other mountains. They asked for something more, so they turned their favorite backcountry terrain into a ski resort. That die-hard pioneer spirit still lives on today.

Snowbird has always attracted a special kind of skier and rider. Snowbird skiers and riders are **A Different Breed**.

a different breed
What makes Snowbird skiers and riders unlike any other? Scan the QR code.

snowbird fast facts

- Average of 500 inches annually
- The Summit 11,000 ft. The Highest Restaurant in Utah
- 3,240 vertical feet
- 2,500 acres
- 2 New Tram Cabins new shape; same carrying capacity

avalanche rescue education & training center
Sharpen your skills at the Avalanche Rescue Training Center located just east of The Cliff Lodge. Sponsored by Snowbird and Wasatch Backcountry Rescue, enjoy free access to simulated post-avalanche scenarios with buried transceivers located by a probe strike. Formal training courses are available throughout the season.

for emergency care:
Call 801.933.2137 for assistance or report it to any mountain employee. The Snowbird Medical Clinic is located on Level 1 of the Snowbird Center and is open daily during the ski season from 9:30 am to 5 pm. The Clinic can be reached at 801.646.4900.

your responsibility code

- Skiing can be enjoyed in many ways. At ski areas, you may be joined by people using alpine, snowboard, telemark, adaptive or other specialized ski equipment. Regardless of how you decide to enjoy the slopes, always show courtesy to others and be aware that there are elements of risk in skiing that common sense and personal awareness can help reduce. Observe the code listed below and share with other skiers the responsibility for a great snowsports experience.
- Always stay in control. You must be able to stop or avoid people or objects.
 - People ahead or downhill of you have the right-of-way. You must avoid them.
 - Stop only where you are visible from above and do not restrict traffic.
 - Look uphill and avoid others before starting downhill or entering a trail.
 - You must prevent runaway equipment.
 - Read and obey all signs, warnings, and hazard markings.
 - Keep off closed trails and out of closed areas.
 - You must know how and be able to load, ride and unload lifts safely. If you need assistance, ask the lift attendant.
 - Do not use lifts or terrain when impaired by alcohol or drugs.
 - If you are involved in a collision or incident, share your contact information with each other and a ski area employee.
- Winter sports involve risk of serious injury or death. Your knowledge, decisions and actions contribute to your safety and that of others. If you need help understanding the Code, please ask any ski area employee.

mountain report
For up-to-date conditions, lift and trail information, download the snowbird app, scan the QR Code or visit snowbird.com/mountain-report.

on the mountain – safety starts with you!

For a safe skiing or riding experience, please review mountain and weather conditions before you hit the slopes.

- The various difficulty ratings on this map are relative to the Snowbird area and cannot be compared to other ski areas. Start with green runs first. During periods of low visibility or other inclement weather and snow conditions, the degree of difficulty of the ski runs may change. Check with Ski Patrol or any mountain employee for current conditions. It is critical that you know, understand and obey Your Responsibility Code as listed on the other side of this trail map.
- Obey all "SLOW SKIING" signs. All blue and green runs at Snowbird are slow skiing areas. Fast or reckless skiing and snowboarding is not permitted at Snowbird. Skiing or snowboarding irresponsibly will result in loss of skiing and snowboarding privileges without compensation.
- Obey all "CLOSED-AVALANCHE DANGER" and "CLOSED AREA" signs. It is unlawful for any person to enter any area designated as closed or unsafe. Violators will be prosecuted. Enter avalanche control areas through open gates only. After passing through an open gate, HIKING ABOVE THE GLIDING TRAVERSE IS NOT PERMITTED.
- Areas beyond the ski area boundary are not patrolled or maintained, and Snowbird assumes no responsibility for the safety and welfare of skiers going beyond the boundary.
- RISK OF AVALANCHE WARNING:** Avalanche hazard mitigation measures within the ski area boundaries help reduce the risk of avalanches but cannot eliminate the possibility of an avalanche occurring in avalanche prone areas and run-out zones open for skiing.

The flying of drones is not permitted at Snowbird. snowbird.com/drones

the inherent risk of skiing

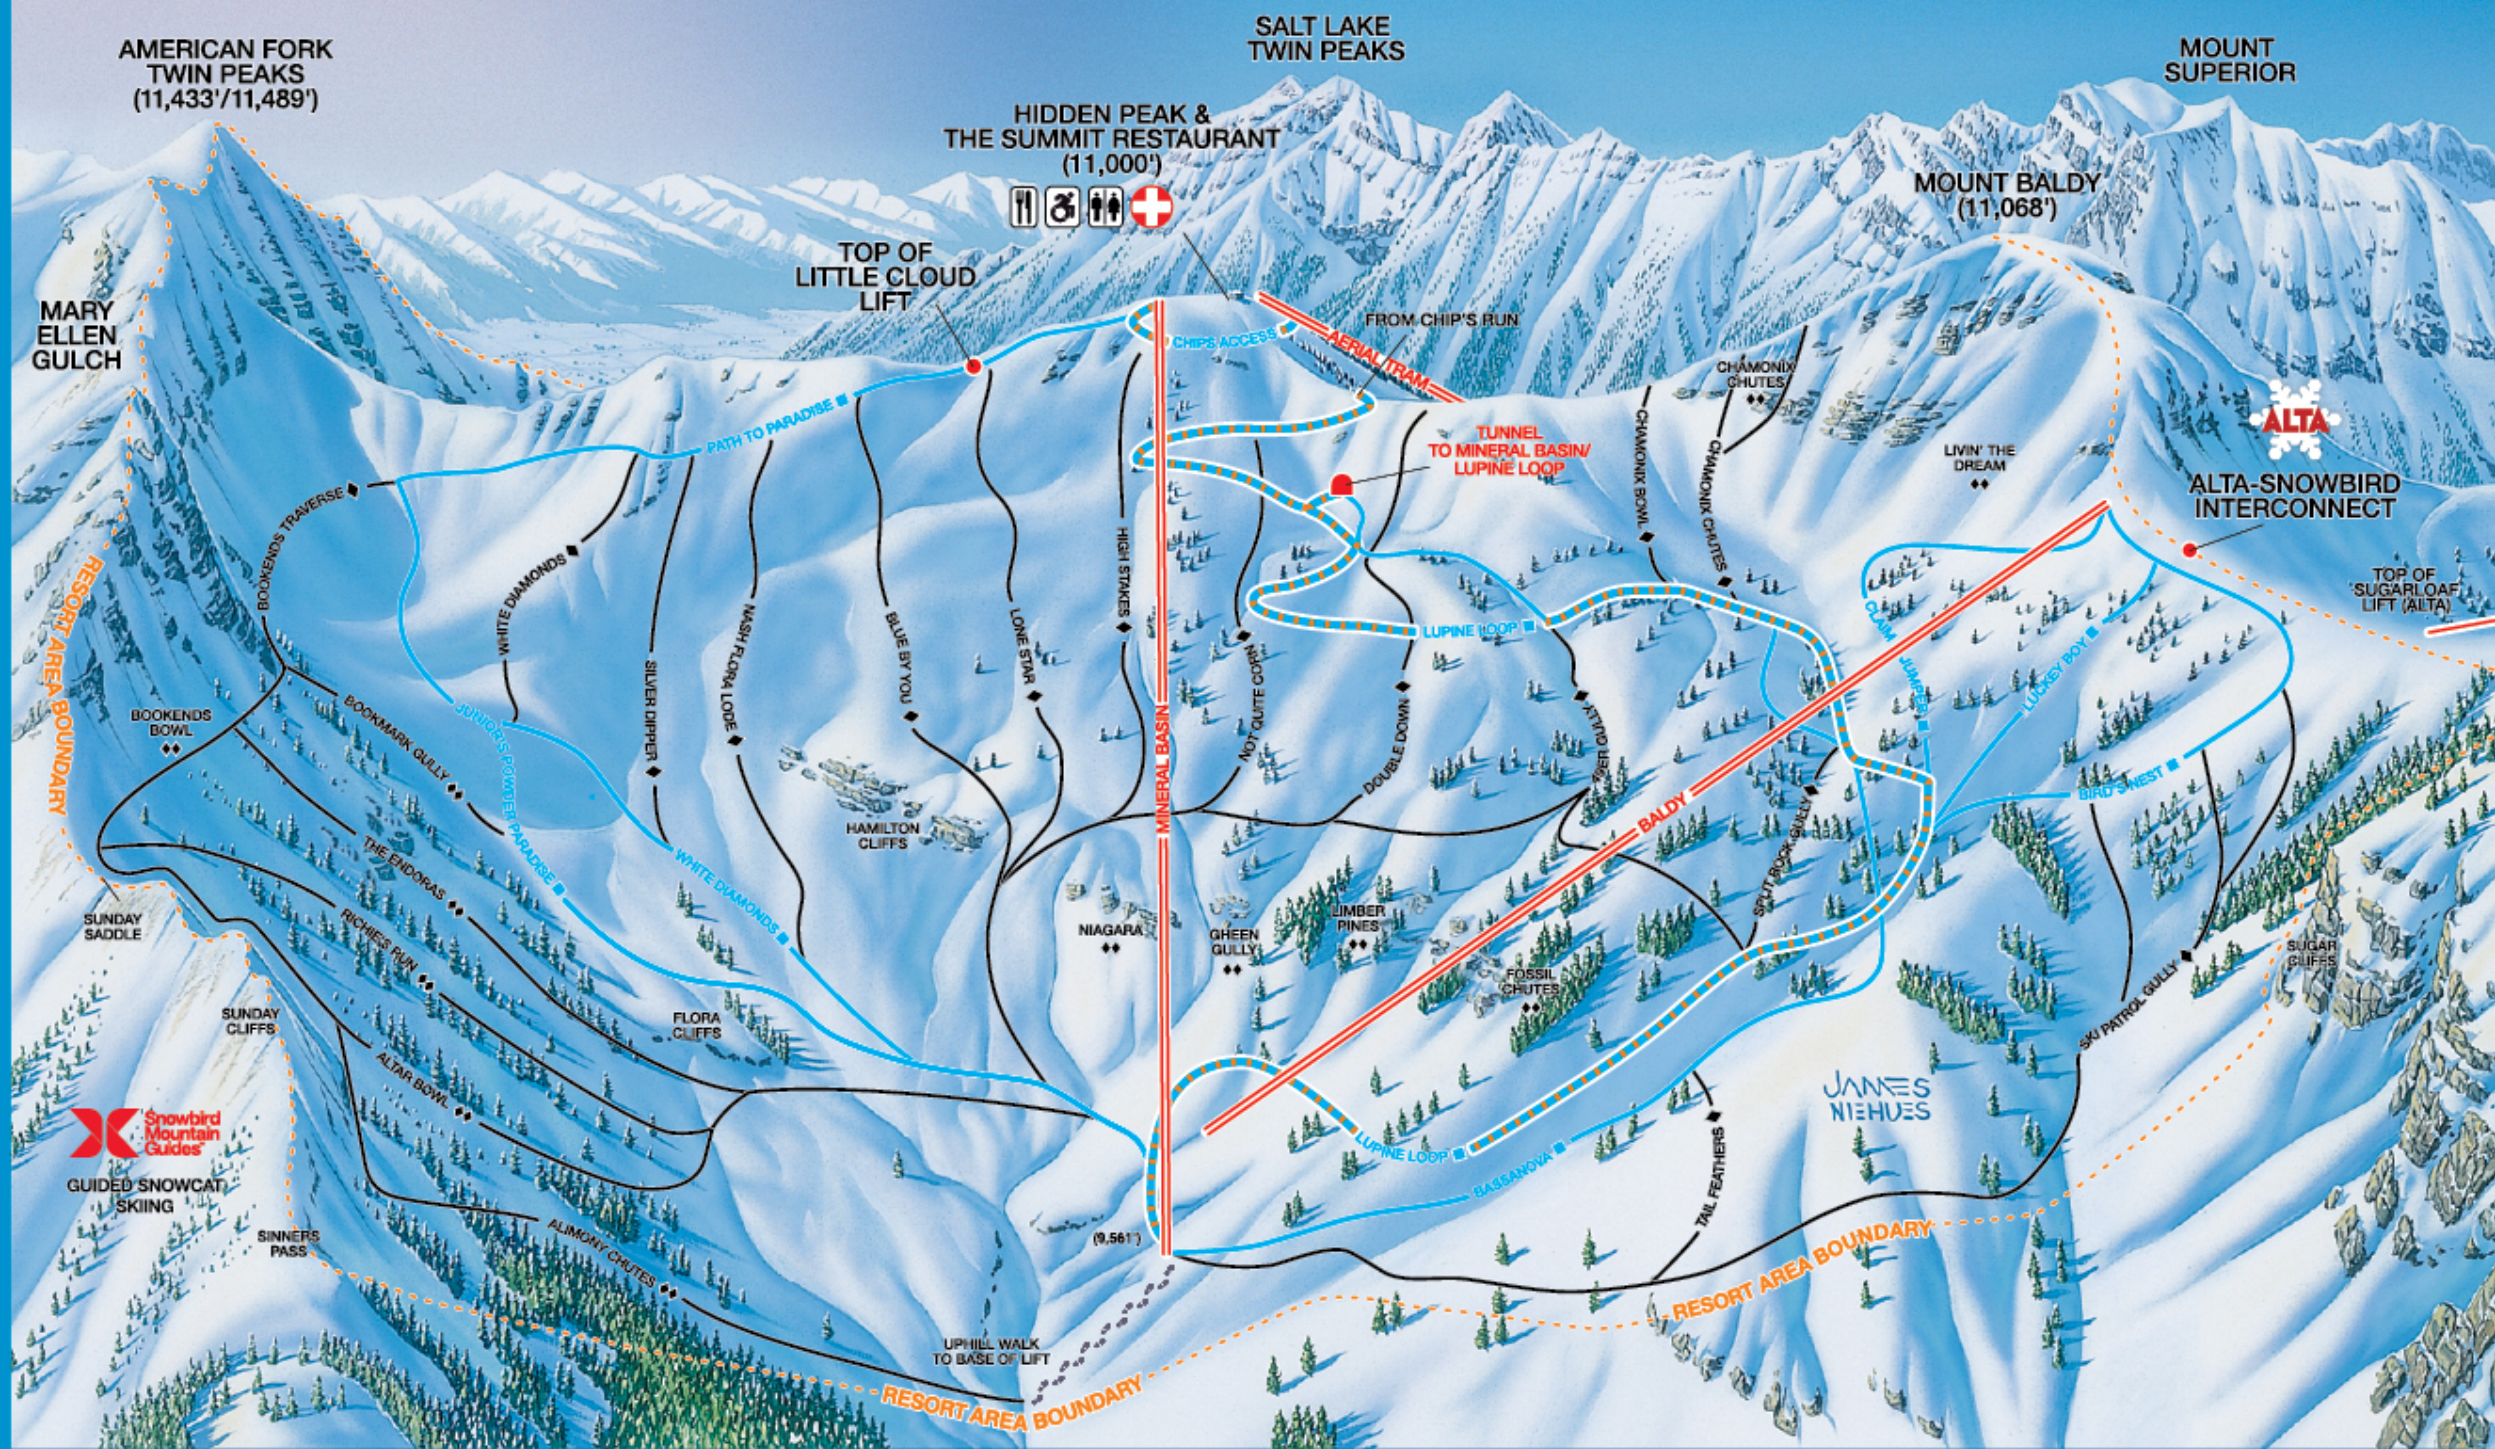

No skier (any person present in a ski area for the purpose of engaging in the sport of skiing, nordic, freestyle, or other types of ski jumping, using skis, sled, tube, snowboard or any other device) shall make any claim against, or recover from any ski area operator for injury resulting from any of the inherent risks of skiing, which means those dangers or conditions which are an integral part of the sport of recreational, competitive, or professional skiing, including, but not limited to:

- Changing weather conditions, avalanches, and snow immersions;
- Snow or ice conditions, as they exist or may change including but not limited to, avalanches, hard pack, ice, powder, packed powder, wind pack, corn, crust, slush, cut-up snow, or machine-made snow;
- Surface or subsurface conditions such as bare spots, forest growth, rocks, stumps, streambeds, cliffs, trees, tree wells, and other natural objects;
- Variations or steepness in terrain, whether natural or as a result of slope design, snow making or grooming operations, and other terrain modifications such as terrain parks, and terrain features such as jumps, rails, fun boxes, and all other constructed and natural features such as half pipes, quarter pipes, or freestyle-bump terrain;
- Impact with lift towers, snowmobiles, snow vehicles, and/or other structures and their components, such as signs, posts, fences or enclosures, hydrants, or water pipes;
- Collisions with other skiers;
- Participation in, or practicing or training for, competitions or special events;
- Failure of a skier to ski within the skier's own ability. Sec. 78B-4-401 UTAH CODE ANN.

BE AWARE THAT SNOW-MAKING AND/OR SNOW-WORKING (where applicable) may be in progress. If you cannot accept the inherent risks of the sport, please do not ski in this area.

REMEMBER TO ALWAYS SKI SAFELY, WITHIN CONTROL.

mineral basin

village dining & après

the cliff lodge
The Aerie
 Level 10, Après/Dinner
 Sip on an après cocktail and pick out your day's tracks via The Aerie Lounge with its panoramic floor-to-ceiling views. Keep the fine-dining vibes going with The Aerie's modern-American cuisine created with local and seasonal ingredients that are sure to make any meal memorable.

 Learn about the ecology and history of the Cottonwood Canyons on the slopes. Free naturalist tours will meet on Saturdays from January - March at 1 pm at the outdoor Mid-Gad Restaurant trail map. Tours last roughly 45 minutes and include beginner and intermediate terrain.

tram good time

the new red and blue
 The installation of 2 new Tram cabins will forever change the ride to Hidden Peak. Manufactured in Switzerland by CWA, it's not just the shape and floor-to-ceiling windows that are new. The bullwheel and drive system that operate the Trams have also been upgraded. Finally, new automated gates and doors at both the top and base stations provide more timely and coordinated departures.

experience tram 2.0
