What's the difference with HEAD JOY skis?

When looking at a range of ladies skis, most people think ...What's the difference. They look great but are they really any different? Simple answer....yes.

Reason #1 Lightweight. The advantage of light skis is less fatigue. They let you ski longer with more enjoyment and feel less tired at the end of the day. Because you have the strength left you never feel out of control. This also leaves you with lots of energy for Après!

Reason #2 Confidence. They have a women's specific profile. This allows the skier to initiate any turn with ease and provide confident edge grip throughout the entire turn. This gives the skier exceptional control in any situation.

Reason #3 Performance. From the beginner skier looking to improve (Easy Joy), aggressive, demanding skiers (Super Joy) to skiers who prefer to ride the entire mountain (Wild Joy); the performance has been matched to that level of ski.

Lightweight, Confidence and PerformanceThat can make a big difference in the enjoyment of your day. JOY series from HEAD, yes, you can have it all. Find the best one suited for your needs at Corbetts Ski & Snowboard Shop!

Skican team in Sunshine Village, AB 2017

Please allow me to introduce you to our team.

We are passionate winter sports enthusiasts who first learned to snowplow on the slopes of the Appalachians, the Laurentians, and the Niagara Escarpment – from Batawa to Adanac, Dagmar to Boler, Osler to Morin Heights, Mont Cascades to Martok. We are experts in icy conditions, survivors of -30 celsius, and strategists on Highway 400, at the lift or in the lunch line.

As toddlers, our parents tied a rope around our waist and pointed our skis downhill. We took lessons in the Nancy Greene school, playing in snow banks until long after sundown. In high school, we raced with the Ravens and the Snowhawks in bell bottom ski pants and fluorescent Sun Ice jackets. And as university students, we gravitated to resorts that let us ski for free if we made our own way to the trailhead, or worked as lifties at our favourite resorts in Canada, South America, Europe and Japan. Over the years we have raced with elite teams, directed Ski Schools, pursued graduate degrees and raised children. Returning to the roots of our ski stories, we are now introducing the next generation to our local hills.

We are Skican. Eastern-based skiers who know what a treat it is to have time away, who understand the dedication required to get to your mountain, and the pure joy that surely awaits. We have been, and are, in your shoes. We are: Shandelle, Catherine, Sylvie, Jeffrey, Chris, Adam, Dave, Brenna, Sarah, Dave, Grace, Jen, Andi, John and Karen. We look forward to working with you this season.

Sincerely,

Karen Nasmith, President

(WHY?) DO IT YOURSELF

We know it is all the rage to DIY for a lot of things in life. This is great when it comes to home décor, crafting, food and small house repairs but WHY 'do it yourself' with something as memorable and important as a Ski Holiday? At Skican, we like you to use your leisure time for leisure, not for research and comparison shopping.

Skican specializes in building ski vacations – for a few days or many for families for the solo traveler or group. Packages typically include lodging, airport transfers or

rental car, ski lift, resort fees and taxes. Want to combine resorts, or go for an extended stay – no problem. Interested in air, lessons and rentals – just ask. Wondering about a resort not listed in this brochure – we'll see how we can help. We will help you make the best decision and take care of all the details so you can focus on the snowy fun. If you are tight on time, short on expertise or don't want to risk the unknown, let Skican help.

Your trip. Your way.

WHY VISIT SUNSHINE VILLAGE?

Sunshine Village sits high on the Continental Divide in the heart of Banff National Park just 15 minutes' drive from the cozy mountain town of Banff. Three sprawling mountains (Goat's Eye, Standish, Lookout) provide breathtaking site lines, uninterrupted by any signs of civilization beyond the resort's leasehold.

Sunshine Village's seven-month season stretches from early November until late May – the longest non-glacial ski season in Canada. Sunshine can receive up to 9 metres (30 feet) of snow in a season and the Village's altitude of 2195 meters (7,200 feet) ensures the snow stays light and dry.

The world-renowned resort features more than 3,300 acres of skiable terrain, ranging from gentle beginner runs all the way up to extreme big mountain runs. Sunshine's very own Delirium Dive has been named one of the 10 top off-piste destinations in the world.

WHY VISIT MARMOT BASIN?

A laid-back atmosphere, dry Alberta powder (average snowfall 4m/13ft), variable terrain and short lift lines are just some of the reasons skiers and snowboarders return to Marmot Basin season after season. Extensive snowmaking and abundant snowfall virtually guarantee a consistent ski season from mid-November to early May. Plus, you can access terrain for all ability levels from every lift, which means that families and friends can ski together all day long. For moguls, look under the paradise chair and for glades, try Eagle Ridge.

With a permanent population of 4500 residents, the town of Jasper has managed to preserve a small-town feeling while offering the amenities you expect from a world-class winter resort. People greet you warmly, even though they've never met you, and it doesn't take visitors long to feel like part of the community. You may even find it hard to leave!

WHY VISIT WHITEWATER?

Sitting within the Powder Triangle of British Columbia, Whitewater Ski Resort (aka WH20) sits within the Selkirk Mountains, an area renowned for plentiful dry snow. It was a tiny little thing prior to 2010 but with the addition of the Glory Ridge triple chair the terrain has doubled and the vertical increased to 623 m (2044 ft). It is great off-piste with steep, bowls, tree skiing and chutes. If you are a beginner, there is a good variety of groomers. It has an appealing retro, low tech feel - great for powder hounds and families alike.

The resort facilities are a little limited but sufficient. The day lodge houses rentals, a retail shop, ski school, café and pub and a kids' play room. There is currently no Whitewater lodging on-mountain, but there are various options in the historic, artsy town of Nelson 19 km away. Life is unhurried in Nelson, the culture is relaxed yet cosmopolitan, and there are several great Nelson restaurants. Don't forget to visit the amazing limestone caves at the Ainsworth Hot Springs overlooking Kootenay Lake about 45 minutes' drive from Nelson.

KI NISEKO, JAPAN

KI NISEKO

WHY VISIT KI NISEKO?

Located 62 miles from bustling Sapporo, Niseko is the largest and easily Japan's most famous ski destination, mainly down to the famous powder. Receiving over 15 m (50 ft) of light, dry powder snow on average, 3000 vertical feet of amazing terrain and 40 ski lifts, this is a big mountain.

Niseko is comprised of three different ski areas, – Grand Hirafu, Higashiyama & Annapuri. They are all linked together and you can buy the lifts according to where you will ski. While the off-piste and out-of-bounds powder skiing is legendary, the on-piste blues and greens should not be dismissed—every type of skier and rider can enjoy the Niseko experience. Chances are likely that it will snow throughout the duration of your trip but the gondolas

and hooded chairlifts make the snowy weather very bearable. Experience JAPOW– Powder Japanese style. Full force and pure fun.

A few tips:

- ▶ Dining options are good and plentiful. For a true sushi experience, head to Fuji Sushi in Niseko Hirafu base
- ▶ If you want a different adventure, take a guided hike to Mt. Yotei an active volcano, or at least take some photos
- ▶ Visit an onsen, a Japanese hot spring and the bathing facilities and inns frequently situated around them
- ▶ English is widely spoken, but a few words of Japanese, such as "Konnichiwa" (hello) and "Arigato gozaimasu" (thank you) will always be well received

An international stomping ground for alpinists, mountaineers and skiers Chamonix has an authentic alpine flair rather than resort glitz and glamour. Chamonix-Mont Blanc is easily accessed from Geneva. The resort is less than 15 km (9 miles) from the Swiss frontier and Italy is just on the other side of the Mont Blanc range. Dominated by Mont Blanc, the Alps highest peak, "Cham" has long been a stomping ground for die hard skiers, yet it still has something to offer for everyone: a vibrant nightlife,

6 resorts that span across 3 countries, local gastronomic specialties... the list goes on.

A favorite attraction is the Vallee Blanche, a day-long 23 km (14 miles) excursion that starts at the summit of l'Aiguille du midi at an altitude of 3842 meters (2380 miles) and runs all the way down to Chamonix. Treat yourself to some unbelievable schussing, enjoy classic French après-ski at France's oldest ski treasure.
